ABSTRACT

82 mm

20mm from edge

This document provides authors with instructions on how to properly format a manuscript submitted for a possible publication in AUC[2] 202x Proceedings. Authors are required to strictly adhere to these formatting specifications. Failure to conform to these specifications may result in rejection of the manuscript. All manuscripts can be written either in English or in Thai. For Thai manuscripts, please follow the Thai preparation guidelines (provided separately in another template). Each manuscript should also have a 100-150 words abstract. It should appear at the top of the left column.

Keywords – *One, two, three, four, five*

I. INTRODUCTION

This document includes complete descriptions of the fonts, styles, spacing, and related information for typesetting your manuscripts. Please follow them carefully and if you have any questions, feel free to direct them to the conference organizer (see more details or ask through any channel provided by the organizer).

II. FORMATTING YOUR PAPER

Your manuscript should be formatted for an A4-sized paper. All printed material, including text, illustrations, and tables, must be kept within a print area of 172 mm wide by 243 mm long. Do not write or print anything outside the print area. The top margin and the bottom margin must be 25 mm each, except for the title page (for the title page, the top margin should be 30 mm and the bottom margin should be 25 mm). The left margin must be 20 mm. All text must be in a two-column format. Columns are to be 82 mm wide, with a 6 mm separation between them. Text must be fully justified [1].

III. PAPER TITLE

The paper title (on the first page) should begin 30 mm from the top edge of the page, centered, completely capitalized, and in boldface 14-points Times New Roman font. The authors' names should appear below the title and should be in 12-points Times New Roman font. Leave a blank line between the title and the authors' names. Place the authors' affiliations below the authors' names. Use 10-points Times New Roman font for the affiliations. Leave a blank line between the names and the affiliations.

IV. STYLES AND FONTS

6 mm

To give the proceedings a uniform look, use the following font styles and sizes. For the main body of the document, use 10-points Times New Roman font. For figure captions and table captions, use 8-points Times New Roman font. Please do not double-space your paper.

20mm from edge

The first paragraph in each section should not be indented, but all following paragraphs within the section should be indented as these paragraphs demonstrate.

V. MAJOR HEADINGS

Major headings, for example, "1. Introduction", should appear in all capital letters, bold faced, centered in the column, with one blank line before, and one blank line after. Use a period (".") after the heading number, not a colon.

A. Subheadings Format

Subheadings should appear in lowercase (with the initial letter of each word capitalized) and in boldface. They should start at the left margin on a separate line (as shown in this document).

1)Sub-subheadings

Sub-subheadings are discouraged. However, if you must use them, they should appear in lowercase (with the initial letter of each word capitalized) and start at the left margin on a separate line, with paragraph text beginning on the following line. They should be in *italics*.

2)Sub-subheadings2,

Sub-subheadings2 are discouraged. However, if you must use them, they should appear in lowercase with the initial letter of each word capitalized) and start at the left margin on a separate line, with paragraph text beginning on the following line. They should be in italics.

25mm from edge

6. ILLUSTRATIONS

Illustrations such as figures and tables must appear within the designated margins. They may span the two columns. Place the illustrations at the top of the page rather than in the middle or at the bottom. Caption and number every illustration. A figure caption should be placed below each figure while a table caption should be placed atop each table. All halftone illustrations must be clear black and white prints. Do not use any colors in illustrations.

Example Figure

Figure 1. A figure caption should be placed below the figure.

7. EQUATIONS

Equations should be numbered in the order that they appeared. The equation number should be placed in parentheses and aligned with the right edge of the column (as shown in an example below).

$$a + b = c + 2 \quad (1)$$

The equation should be centered within a column. Leave one blank line before and one blank line after the equation.

8. PAGE NUMBERING

Do **not** paginate your manuscript. Page numbers, session numbers, and conference identification will be inserted when the manuscript is included in the proceedings. Both English and Thai manuscript should be 5-10 pages, including all text, figures, and references.

9. CITATION STYLE

The References section should appear at the end of the manuscript. The heading of the References section should **not** be numbered. In the References section, list and number all the bibliographical references cited in your manuscript. Use the IEEE citation and reference style [2]. The references should be listed in the order that they are cited in the manuscript. When referring to them in the text, type the corresponding reference number in square brackets as shown at the end of this sentence [3].

Table 1. A table caption should be placed above the table.

Name	Age	Weight (kg)
Alice	12	30
Bob	13	28
Charlie	14	35
